To Whom It May Concern:

It is my privilege to highly recommend Mr. Jarod McGuffey as an Administrator in any district. I have worked with Jarod over the last six years as a fellow teacher at Walt Disney Elementary in Fraser and can truly say that he has been a beacon of light for our school as well as challenged myself to push my teaching to a new level. He has put into practice the Modern Teaching Strategies that we have learned throughout the district, to create a more blended learning environment for his students. His professionalism, passion, and willingness to complete a challenge has not only strengthen our entire staff, but has ultimately exhibited positive academic growth and motivation for all of the students that he teaches on a daily basis.

Mr. McGuffey's vision and blueprint for learning has truly impacted my professional dialogue, along with many others at our school. Mr. McGuffey has reshaped the learning strategies we have been using in today's modern classroom. His knowledge, leadership qualities, and ability to effectively and inspirationally communicate with fellow colleagues, parents, and students make Mr. McGuffey a sound leader for any school.

Sincerely,

Mr. Jeffrey Fallucca Sr., M.Ed

Walt Disney Elementary Teacher
