

# TRUSTED VOICES

Inform | Collaborate | Advocate

## Mission

Our mission is to reframe the agenda for public education. As a nonpartisan advocacy organization, we are focused on informing all stakeholders on current education policy and collaborating with legislatures to ensure every child receives the highest quality of education.

## Vision

Trusted Voices, a network of networks led by Galileo's Teacher Leaders who evaluate current policy and help establish new policy advancing Michigan's students and elevating the teaching profession.

## Goals

- 1) Inform stakeholders of education policy and help educators to have their voice at the policy table.
- 2) Build strong collaborative partnerships with teacher-leaders, administration, and legislatures.
- 3) Advocate for teacher leadership and student learning.

## What we are working on?

Building a network of expert educators who will empower teacher leaders to take leadership over key policy and practice issues, directly impacting student achievement and supporting Michigan's ESSA plan. When administrators, teacher unions, and legislators work collaboratively on education policy, everyone wins.

## Strategic Partnerships:

MASA, MASSP, MEMPSA, MEA, AFT, MASB, PTA, Republican & Democrat Legislatures

## Our Team:

|  |                  |
